

GOLF BUGGIES

Players shall check for damage to the buggy and inform the steward of any defects. At the end of the game, players shall return the buggy to the steward who will check for any damage before accepting it. Please refer to BYE-LAWS (Part 4 Clause 18) for more details.

The Club may restrict the golf buggies to the paved buggy paths for such periods as it deems fit. All players shall observe buggy restriction to buggy paths when such rule is in force.

When restriction is not in force, all players shall ensure that they do not drive over soggy areas or ground under repair (GUR) to avoid damaging the course.

All players shall observe the traffic regulations and directions on the course and park within the designated parking areas. They are to avoid going into rough and hazard areas.

All players shall use the buggies in the proper manner intended. Hill brakes must be applied before the buggy. Safety first must be observed. Driving with paddle is to be avoided. Avoid using the accelerator pedal to balance the buggy on slope as it can burn the motor.

Buggies are prohibited in areas specified by the Club and they include the following areas:

- i. Tee-boxes
- ii. Bunkers
- iii. Sprinkler heads
- iv. Flower beds
- v. On/around the green
- vi. On the apron
- vii. On the fairways between the string laid on the fairway and the green.
- viii. In the carpark
- ix. All Par-3 holes fairways

Any member who breaches any of the BYE-LAWS contained herein may be referred to the Disciplinary Committee.
